DETAILED ACTION

Applicant's amendment filed 2/12/09 is acknowledged. Claims 1-2,4,6,8-12,16-17,19-22,25-30, and 33-38 are pending. Claims 9-12,22,25 and 29 remain withdrawn from further consideration. The examiner further withdraw the new claims 37-38 from further consideration because the subject matter of "the moving piece is composed in a manner such that the temporary magnets are pivotally arranged at both end portions of the permanent magnet" direct to the non-elected species of figure 18 and not directed to the elected species of figure 12.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 4 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claimed subject matter of "the moving piece includes a pair of sliding members arranged at symmetrical positions on both sides of the moving piece in the sliding direction" in combination with "the moving piece comprises a sliding piece...on an outer surface of the sliding piece opposed to the moving piece" recited in claim 1 is not supported in the original disclosure.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 30 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 30 depends on the cancelled claim 3. Therefore, it is not clear the scope of the claim. Claim 30 is assumed to be cancelled as well.

Allowable Subject Matter

Claims 1-2,6,8,16-17,19-21,26-28 and 33-36 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
